Professional Experience

Whiteshark Creations, LLC.

Casselberry, FL

Owner / Lead Developer

May 2008 - Current

As co-owner I am not only responsible for the technological needs and requirements of our company but also the strategic planning and execution of new ideas.

Recent projects include:

- www.floridahomecompanion.com -- Front end and backend development
- www.X2TheL.com -- Template development
- www.casadibellacelebration.com -- Front end and backend development
- www.BETAcenter.org -- Front end and backend development

Image Technical Services

Winter Garden, FL

Web Developer

Nov 2004 - May 2008

As Web Developer I helped develop company's internal development tools and client applications. Some of these projects include:

- An internal Courseware Content Management System for Instructional Designers and Graphic Artists. This application was built using Prototype JS Framework, Classic ASP and SQL Server 2000.
- Maintained efficient and consistent management of Government Conformant Courseware for various branches of the government and maintaining the VA's VACR (VA Conference Registration) system.

Yellow Dog Interactive

Metro West, FL

Senior Web Developer

Mar 2002 - Oct 2004

As Senior Web Developer I played a key role in developing numerous client web sites for various industries. Some of these projects include:

- Created over 30+ client web sites for various industries all over the global. Project types include E-Commerce, Brochure and Social Networking portal applications.
- Complete re-design and development of Profina.org including enrollment application and internal intranet applications. This application was built using VB.NET and SQL Server 2000.

Professional Experience (cont'd)

Innhanse Corporation

Orlando, FL

Web Developer

Oct 2000 - Dec 2001

As a Web Developer I worked on improving key areas of our products and excelled within our structured team environment. Some of the tasks completed were:

- Converted ASP based product "WebRez" that was originally coded in ASP to a ColdFusion-based application. WebRez is an online hotel reservation system that was used by the Caribe Royale, Hyatt hotels, Radisson, and other AFHCA hotels.
- Created and maintained portal applications for our thin client hardware. Portal applications consists of basic travel related modules for ex. Local Attractions, Weather, Current Events and Restaurants modules.

Hyperion Solutions

Orlando, FL

Software Developer

Jan 1998 - Mar 1999

As a Software Developer I was tasked with automating software build processes and the creation of other basic software components.

- Re-development of build process using batch files and InstallShield Script. InstallShield scripting requirements included Microsoft Gold Installer Certification.
- Developed an internal message board used by QA and Tech Support to relay bug reports. This application was built using Classic ASP and Microsoft Access.
- Developed our Java based print Modal windows for our featured product Wired for OLAP. Interface coding was done using Java Swing components.
